

Engineering Management Accelerator Live One-Day Workshop

May 18, 2018 | 8:30 am to 4:30 pm

University of Central Florida | Orlando, Florida | *5 PDHs

Build Engineering Management skills to give you and your firm the edge.

- 1) Building Expertise and Improving your Public Speaking
- 2) Maximizing Billability and Productivity
- 3) Developing Leadership Skills
- 4) Networking and Build Relationships
- 5) Effective Communication Skills

Learn to implement the information with pointed assignments and use of a 2-month **membership** (included) to an online forum with coaches that will help you to apply the framework and skills to your daily job.

“Improve the skills needed to become an effective and highly successful manager”

Only **20 seats available** that will fill up quickly.

Investment: \$547

Register prior to April 22nd and **save \$100** with an **Early Bird Ticket**.

*PDHs available in States that accept non-technical topics.

Your instructors will be Anthony Fasano, PE and Alexi Leimbach

Anthony is a globally recognized entrepreneur, best-selling author, speaker and top engineering career coach.

Alexi a civil engineer/US Navy Veteran with extensive background on project management, strategic planning, coordination, team leadership, marketing, communications, and more.

Unlock your potential with our experts' training.
